Visit to the Logos Center

Visit the Logos Center, founded in 1997 by Anne and Herb Puryear. Learn about the unique rooms built to facilitate healing, psychic activity, and afterlife connections.

The Threshold Room

The Threshold Room is a ten by ten foot dedicated meditation room enclosed in a Faraday cage (shielded, walls, floor and ceiling with copper screening and grounded with copper rods). The metal door is also grounded. Research has demonstrated that ESP accuracy is enhanced when the person is shielded in this way.

You may schedule time to use the Threshold Room to meditate and attempt to connect with loved ones in the afterlife.

Magnetic Meditation Alcove

In the chapel, there is a private meditation alcove equipped with a table with seventeen 6 X 4 magnets, a stereo CD player, and access to aromatherapy oils. Lying on the magnets with these additional aids is designed to give the meditator an enhanced opportunity for attunement and healing.

Sittings with Mediums

Talented, certified mediums will be at the conference to connect people with their loved ones on the other side. We will provide the contact information after you register, and you will make your own arrangements to meet with a medium at the conference.

Afterlife Communication Events

- Watch an actual Guided Afterlife Connection session conducted by the psychotherapist who originated the procedure.
- Participate in a group induction that results in afterlife connections for some participants.
- Learn how to do automatic writing and try it out.
- Watch a demonstration of how to use a pendulum to communicate with loved ones.
- Participate in a meditation activity to communicate with the other side.
- Participate in a workshop showing how to record electronic voice phenomena.
